Frontend Developer & Web Designer skilled in building responsive, accessible web applications using React.js, Redux, Redux Saga, and Redux Persist. Proficient in Figma-to-code conversion, API integration, and optimizing user experiences. A problem solver with a mechanical engineering background, constantly learning and improving in the ever-evolving web development landscape.

EDUCATION

Bachelors of Computer Application	Aug 2021 - May 2024
Tilak Maharashtra Vidyapeeth Pune	GPA: 7.800
12th- HSC	Aug 2019 - May 2021
RR Education Trust Mumbai	GPA: 68.00%
10th – SSC	Aug 2006 - May 2019
JJ Academy High school Mumbai	GPA: 52.00%

SKILLS

State Management & Libraries: Redux, Redux Saga
API & Backend Integration:: API Integration, Postman API, Axios, Performance Testing,
Design : Figma, User Interface (UI) Design
Front-End Development: HTML5, CSS3, JavaScript, React JS, Responsive Design, Bootstrap, SASS, Tailwind CSS, Material UI, User Interface (UI) Design
Version Control: GIT, GITHUB, GITLAB
Operating Systems: Linux

PROJECTS

Student Portal Dashboard	Sep 2024 - Present
Developing a student portal dashboard that includes mentor and admin portals, aimed at enhancing the management and interaction between students, mentors, and administrators. Leading front-end development using React and Tailwind CSS to create a responsive, user-friendly interface for managing student and mentor activities.	
Jarvis Website Clone 	Nov 2023 - Nov 2024
The project focuses on performance optimization, using efficient coding practices for fast loading times, minimal CSS/JS, and responsive design. SEO best practices are incorporated with proper meta tags, clean HTML structure, and optimized images, ensuring a user-friendly experience across all devices.	
Flux Market (E-commerce Web App)	Aug 2024 - Sep 2024
Currently developing an e-commerce web application named Flux Market, focused on providing a dynamic and user-friendly shopping experience. Responsible for the front-end development using React, implementing key features such as product listings, user authentication, and shopping cart functionality.	
Techpaathshal Website (Live Project) 	Jul 2024 - Jul 2024
Worked on the development of the Techpaathshal website, focusing on API integration and enhancing mobile responsiveness. Integrated APIs using JavaScript Promises, improving data handling and user interaction. Enhanced mobile responsiveness using SCSS, ensuring a seamless user experience across devices.	
Sundown Studio Website clone	Jan 2024 - Jan 2024
Enhanced user experience with GSAP and Locomotive Scroll for fluid transitions and scroll animations. Engaging UI components developed with JavaScript for dynamic content interaction. Clean and contemporary design replicated with meticulous attention to detail.
